FROM TEACHER TO TIMELESS STORYTELLER

I'm Kirsty, a teacher-turned-artist, rediscovering the passion I first fell in love with as a child. After years of following the 'sensible' career path, I've returned to what has always felt most natural to me — creating art.

My Dad first taught me how to draw, and since then, capturing likeness and emotion through painting has been second nature.

Building my life around what I love — creating bespoke, timeless works of art that couples can treasure forever.

TRANSFORMING MEMORIES INTO A

masterpiece

What I Do

My focus is always on the couple.
I don't paint guests or detailed
backdrops —
instead, I create photorealistic
portraits that honour a likeness and
celebrate your connection.
The result is an heirloom piece of
art that can be proudly displayed
every day — a daily reminder of
the love, joy, and commitment
shared on that day.

I paint couples live at weddings,
transforming a moment from
your special day into a timeless,
photorealistic painting you can
treasure forever.

I offer couples a unique, luxury
way of remembering your
wedding day.

While photographers capture
thousands of images, and
videographers craft highlight
reels, a painting becomes
something more
intimate: one carefully chosen
moment, immortalised in
brushstrokes.

“Kirsty’s skill and ability to capture such a beautiful moment through a painting is just amazing.”

Charlie & Chris

How it Works

On Your Day...

1. Capturing

I'll capture my own images in line with your vision for your painting. You'll have the final say in which image I use.

2. Sketching

During your drinks reception, you and your guests will see your portrait come to life.

3. Painting

After a short break, I begin painting and blocking out the main parts of your portrait. Your guests are free to interact, film and photograph the process.

4. Revealing

When your portrait is fully formed, I'll invite you both to a grand reveal (photographers love this bit too!) I'll then pack up and take your painting back to the studio.

After Your Day...

1. Refining

This is where the depth and detail is added to your portrait using reference photos from your day.

2. Confirming

You'll be sent a digital image of your painting to check you are fully happy.

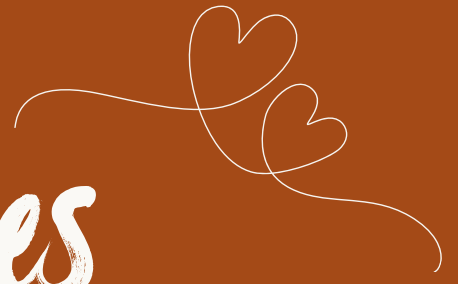

3. Framing

Choose from 6 frame options with every painting double mounted. I use a local, quality framer who will ensure your painting is ready to hang on the wall.

4. Delivering

If you live within 50 miles from my studio, I will hand deliver your painting at a time convenient to you. For couples further afield, I use a tracked delivery system.

End of the Night

The question I get asked the most is whether I finish it on the night.
And the short answer is no.

End of the Night

After Studio Edits

However, by the end of the night, every element of your portrait will have the foundations laid and you will have a real vision of how it will look when complete. All areas of the canvas will be covered in paint and you (and your guests) should be able to recognise yourselves.
